## GOP To Set New Pattern In Congress

Washington, (A) Major changes in the dominant political philosophy as well as the complexion of Capitol Hill appear certain when the new 83rd Congress meets next January 3.

It will be the result of a switch from Democratic to Republican leadership on the strength of paperthin GOP numerical majoritiesnow consisting of no more than one in the Senate and possibly only two in the House.

The major effect of Tuesday's balloting on Congress, therefore, would appear to center on GOP capture of vital committee chairmanships and the legislative machinery on both sides of the Capi-

THE PRESIDENCY A new Chief Executive is sere-

ied by the sounds of music and thunder. The singing quality of a great honor plays a strange duet with the t u multuous overture of profound duties. It endows a man with the

opportunity for exhilarating accomplishments and condemns him to solemn experiences. He is the proud inheritor of a noble tradition as well as the Isave of its responsibilities.

The Presidency is a national institution -- the President is an individual. His problems are not only political, economic and military. They are also extremely personal. He must be equipped with moral endurance plus philosophic conviction. His physical stamina will be constantly challenged and his spiritual strength severely tested. A merchant in Allentown, Pa., comes to New York twice a month to buy goods, and his favorite place to dine on such visits is a midtown restaurant that features not only good beef but four walls full of photographs of great movie stars, jockeys and ball players, all autographed with messages of undying affection to the proprietor, Pasquale . . . After a while, the merchant couldn't help noticing that none of these glamour pusses were even seen dining at the restaurant in person. Most of the patrons, in fact, invariably looked as though they, too, had just gotten off a train from Allentown . . . So he called over a waiter and grumbled, "Hey, how come I never see any More fundamental than these of the big shots whose pictures you've got on the walls coming spotted any of them yourself?" relaxation for a work-weary man than a day's drive at

The car has a "feel" to it-even when it isn't in motion. You sit right. The wheel falls naturally into your hands. You look out through the big curved windshield-over the beautiful hood and into the distance -and you know that "this is it"!

And then you turn the key and the great engine whispers into action-and the day's fun begins. First, there's the silence-only the sound of the wind -and the occasional tick-tick of the electric clock. And then there's the comfort—the easy, soft, steady ride over almost any type of road.

And next, the handling ease! The steering wheel moves with the weight of the hand. There is remarkable steadiness on straightaway and curves. And the brakes give added confidence each time you touch the pedal.

So the miles go by and the miles go by. Towns and villages appear and disappear.

And you should. For keeping your car checked for possible mechanical faults is one of the first rules of safe driving. Pennsylvania's compulsory semi-annual car inspection has saved lives because 28 danger points in your car are thoroughly checked for possible flaws.

But car inspections don't guarantee safety on the highways. You should check your driving habits continually. Make sure you are obeying the rules and regulations set up to protect your life and someone else's.

You always can get a spare tire. You have no "spare" life. Drive accordingly.

#### Everitt Class To Send Gifts To Servicemen

The monthly business and social meeting of the A. F. Everitt Class of St. John's Lutheran Church was held in the social rooms on Wednesday night with a large attendance. The devotional portion of the meeting was conducted by the teacher, Mrs. Carl Albertson, who based her remarks on Thanksgiving.

During the business session which followed the following officers were elected: Mrs. Albertson, the teacher, was re-elected president; Mrs. G. Leslie Bush was chosen vice president; Mrs. W. Ed. Robinson was elected secretary and Miss Dorothy Many Attend Goedoecke chosen treasurer.

It was decided that the class Party Sponsored would sponsor sending Christmas packages to all the members of the church who are in the armed forces. It is hoped that families of those in the service of our nation will furnish the church office promptly with any change of address, so that the packages will reach the boys in

The class also decided that the next regular meeting will be held on December 2, in the form of a Christmas party, when gifts will Miss Frances be exchanged. Everitt, Mrs. G. Leslie Bush, Mrs. Joe Altemose and Mrs. R. K. Feller were named a committee to have charge of this affair.

The following persons were named as the Communion committee for the Advent Communion on Sunday, Nov. 30; Mesdames Carl Albertson, Jos. Altemose, Mary Blair and Nevin tiest, Marie Keller.

Following the business session a social hour was enjoyed presided over by the hostesses: Mes-Shook, John B. Dunkelberger and Miss Harps,

This bodies of the respective schools.

Regardless of where spectators find a seat in the main stands at the East Stroudsburg football field, you can rest assured that your vision will be good. I firmly believe that East Stroudsburg authorities have taken the student bodies into consideration and didn't make the reserve ticket move until they were satisfied that the students had adequate scating arrangements. The reserved seat venture will add much needed revenue for the two schools and will also aid in scating of spectators at the 10 a.m. contest.

TWO OF WORLD'S latest jet fighters are rolling off French production lines at a faster rate because of a \$34,000 machine supplied by a California firm. The machine makes ribs for fuselages in the Mistral and Vampire jet fighters coming from a plane plant at Marseilles, France. The machine does in 15 minutes a job that formerly took six hours. It makes the curving ribs that give an aircraft fuselage its shape and strength. The firm at Marseilles builds the Mistral, which is named after a violent, cold wind in Southern France, and the English-designed Vampire. The rib-making machine is supplied to the French under Mutual Security Agency program. With MSA aid and larger French government allotments, the plant's production of jet fighters will soon be tripled. The increased output of planes will help France supply North Atlantic Treaty Organization with needed squadrons,

High School educators are proud of our country's whopping 35,000 high school bands—a remarkable phenomenon of our American educational system. They have a right to be. Not only are most of them well-organized, well-equipped musical aggregations, 90 per cent are classed as first-rate groups.

That's not all. More than 80 per cent of the members of radio, stage, television and motion pic ture bands and orchestras boast of graduating from the high school music movement. Some notables: Stan Kenton, Harry James, Ralph Flanagan, Jimmy Dorsey,, Benny Goodman and Vaughn Monroe.

A recent survey by the American Music Conference, shows that more than 75 per cent of all grownups who now play band instruments received all or part of their training as candidates for, or members of high school bands.

Today, it is not uncommon to see teen-agers set up dance orchestras before they graduate. Encouraging, too, is that from this same source, hundreds each year decide upon classical music careers.

A Good Gas Investment

Fractional assignments are now being offered in a gas well being drilled by the Stevenson Development in the new Mix Run area of Northern Pennsylvania which is located in Cameron County Southwest of the now famous Leidy field. This is the birthplace of Tom Mix of motion picture fame. This field has only recently been opened and in the past six opened and in the past six months has developed approximately eight to ten producing wells. Other wells are in the process of drilling.

Stevenson Development drilling site is within one and one half (1%) miles of several of these producers and wells are now being drilled within a thousand yards on both sides of the property. Stevenson Development is one of the very few operations that is independent and can offer an interest to the public as a very large percentage of the land is being drilled and developed.

being drilled and developed by the large and closed companies. Those interested in purchasing a portion of this well thru legal assignments can secure a "prospectus" and all information by writing or otherwise contacting Stevenson Development, 118-10th St., Renovo, Pa. Automotive

## Drama Club Rehearses Popular Play

ers Coilege drama club members bring, Alice Asarian, Joseph Tichy, will present the Pulitzer Prize-Shirley Binder, Donald Harding, winning comedy "You Can't Take Edward Zalesky, Katherine Mertz, It With You" Thursday and Fri- Louise Fuge and George Barna. day, Nov. 13 and 14.

Written by Moss Hart and George S. Kaufmann, the play received enthusiastic endorsement at the mouth of the Pearl River. from critics and audiences atike during its initial Broadway appearance. It has since become one of the most popular comedies in community theaters.

The plot of the comedy deals with the "crackpot" Sycamore family-most of whose members are engaged in some sort of "artistic" endeavor.

Into the middle of this eccentric family circle. Alice-the most nearly "normal" person in the play brings her boss' son on whom she hopes to make a favorable impres-

Alice makes a good impression of her own, but the family splits apart at the seams in one explosive scene after another.
